

Joanne Onis

Frontend developer

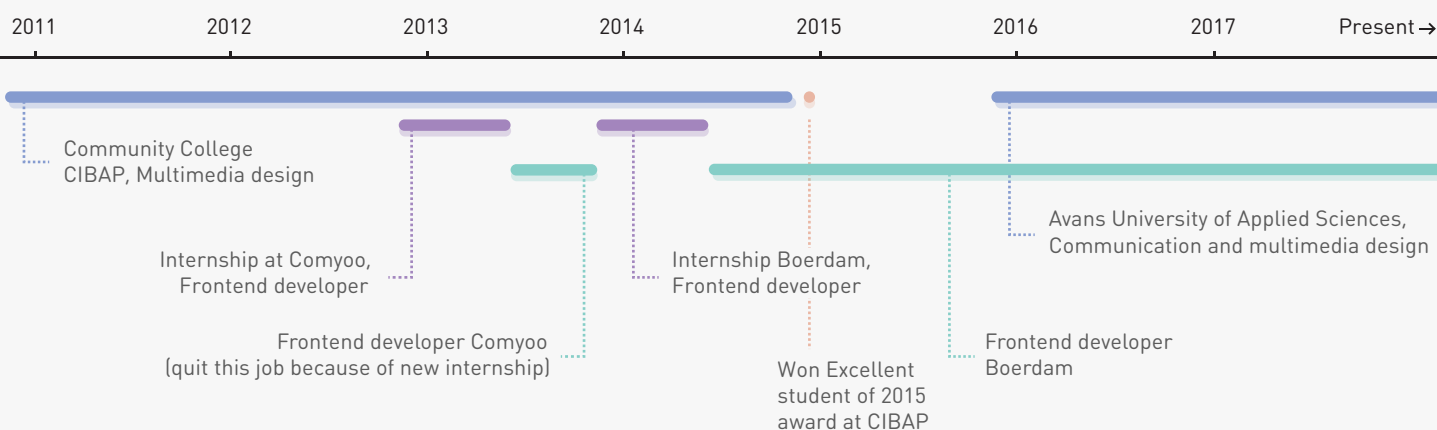

/ Date of birth
23-04-1995

/ Email
joanneonis@gmail.com

/ Address
Harfsensesteeg 38, 7217MH Harfsen

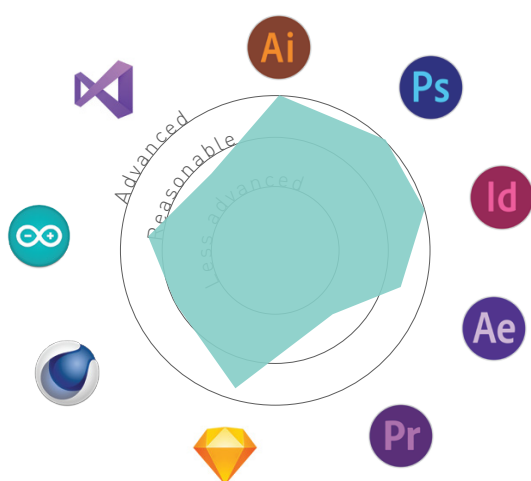

/ Phone number
(+31)6 422 870 48

Timeline

Competences

Software

Code

CMS systems

Joomla and Wordpress.

Specialised in

SCSS and HTML5

Personality

My passion lies with interaction design, especially on the web. I love designing solutions that help people move forward. Social projects therefore appeal to me very much, but I also have a strong interest in designing (better) processes, mediums, platforms, data visualisations and playful interactions.

My strengths lie in thinking up and implementing solutions that are meaningful and user-friendly. I work well with others, and always strive for a good end result.

Soft skills

Creativity

Others describe me as very creative. Conceptual thinking is one of my strong points.

Teamwork

Experienced, worked in SCRUM teams and Schoolgroups.

Communication

Above average, good in communicating ideas through presentation and conversations.

Self-awareness

Good. Followed trajectory at work about self-awareness.

Customer service

Below average. I usually need a little bit more time to get used to new people.

Planning and organization

Average. I find estimating size of work quite difficult.

Pressure and flexibility

Due to my ever-changing timetable I'm very flexible and I also perform well under pressure.

Hobbies

I enjoy football and (occasionally) playing games, especially local multiplayer games (Cuphead, Towerfall, etc) and boardgames.

Additional competences and information

Dutch language	Native language
English language	C2
Drivers license	Yes
Scrum experience	Yes, three years
Married	No
